

General Discussion

Short-term Objectives – Visibility

- Written language
- Speech
- Multi-modal interaction
- Disclosure of “archival material”
 - Need to also involve other communities
- Visibility by means of meta-data publishing
 - Relation with LRA and LDC?
- Input for Cencioni in December?

Medium-term objectives

- Taxonomy of research objectives
 - Required degree of granularity in annotations
- Different resources and different tools for different research objectives
- Re-purposing of resources
- How dangerous is easy-to-use software?
- Better understanding of the interplay of research and infrastructure

Long term 1

- Legal Issues
- Data preservation
- Additional Centres
- Sustainable business model

Long-term 2

- Requirements of journals and funding agencies to make data available
- How can we create a research environment in which research on small languages makes similar contributions to science as the NIST competition
